I am a Lion because I was asked to be a part of an organization of over a million men and women who make a difference in their local community every day serving others, not just through the support of vision, but other unmet needs as well. It's that personal satisfaction you get in your heart when you help others, those you meet, and those you never meet.

Lion Linda Starr is driven by this quote from our founder, Melvin Jones:
“You can't get very far until you start doing something for someone else.”
WE SERVE!
